INSURANCE COVERAGE FOR PARENT ADVISORY COUNCILS

1. Parent Advisory Councils (PACs) have been named as an additional insured party under the Schools Protection Program comprehensive liability coverage. This means that the insurance coverage in place for school districts is in place for PACs.
2. This coverage comes into play when a PAC undertakes activities that are not sponsored by the District. Examples of such activities might include a dance, dry grad, etc. Activities sponsored by the school or District have a more inclusive coverage.
3. The coverage is limited to:
 - 3.1 Members of the PAC, which is defined as parents and guardians; volunteers working on a PAC activity are not covered;
 - 3.2 Activities approved by the PAC and undertaken by the PAC in connection with the school.

It does not provide coverage if one member of a PAC brings a suit against another member.
4. PACs must file incident reports to the Ministry, the same as schools.
5. The District's insurance premiums will be influenced by the claims experience of the PACs.

What Should Principals Do?

1. Ensure that the school PAC is established as required under Section 8 of the School Act.
2. Advise the PAC of the procedure for reporting incidents (i.e. complete report).
3. Advise the PAC that principals must be advised of events involving children, even if not school sanctioned, and they will review the event to ensure that the District's safety requirements are met.
4. Make the PAC aware of the standard of care the District requires when an activity involves students.

EMERGENCY SCHOOL CLOSING

Background

The safety of students and personnel, in and on school property, when school is in session or during school sponsored activities is paramount.

Schools provide an important public service to the community. Any closure has a significant impact on tens of thousands of families. Most cannot arrange alternate childcare when schools are closed unexpectedly. Consequently, schools will rarely be closed by the Superintendent due to extreme weather conditions (e.g. snow, ice, high winds) or other emergent conditions (e.g. power outage, disruption of water or sewer services, compromised structural integrity of the building due to earthquake or fire) at a particular school that makes it impossible to operate safely.

Recognizing the importance of consistency, good public relations, and effective use of instructional time, the District will endeavour to keep schools open and in session on all regular school days throughout the school year.

Procedures

1. The Superintendent or designate, is authorized to close a school, delay the opening time of a school, or dismiss a school early where weather or other conditions might endanger the health or safety of students. The decision will be made in consultation with:
 - 1.1 The Director of Facilities and Planning regarding site and road conditions,
 - 1.2 The Director of Finance and Management Services regarding status of school bus operation; and
 - 1.3 Assistant Superintendents and other sources (i.e. metro District Superintendents) as applicable.
2. To the greatest extent possible, appropriate arrangements shall be made for advising parents and ensuring safety of dismissed students.
3. Trustees shall be advised of significant emergency closings or dismissals as soon as practicable.
4. It is understood that some students travel to school in ways that may not be possible or safe on an extreme weather day. Therefore, no student will be penalized for lack of attendance under such conditions.

5. Emergent Conditions Which Occur During the School Day

- 5.1 The Principal will contact the Superintendent or Assistant Superintendent should an emergent condition develop during the school day, and the Principal is concerned about the health or safety of students and staff.
- 5.2 With the approval of the Superintendent or Assistant Superintendent, the Principal may close the school early in the above circumstance.
- 5.3 The Principal is responsible for ensuring students are not released early from the school's supervision unless reasonable and age-appropriate provisions are made for their safe return home.

6. Emergent Conditions Which Develop Overnight

- 6.1 Should emergent conditions develop overnight, the Superintendent or designate may decide to close a school or delay its opening, or close all schools or delay their opening, after consultation with District staff and appropriate authorities.
- 6.2 Staff, students and parents are to assume that schools will be open. Should it become necessary to close schools or delay openings, that decision will be made as early as possible, by no later than 7:00 a.m. on that day.
- 6.3 District-wide school closings or delayed openings will be posted on the District website, a notice recorded on the main District telephone number, and announcement made via the following media outlets:

Radio Stations	TV Stations
C.B.C. AM 690	CTV B.C.
CKNW AM 980	C.B.C.
News AM 1130	City TV
CHQM-FM 103.5	Global B.C.

- 6.4 Once announced, decisions will not be changed except by the Superintendent or designate.
- 6.5 All elementary students and secondary students with special needs, who arrive at a closed school without parents/guardians are to be taken into the school as they arrive and are to be supervised until arrangements have been made with parents/guardians for the students' return home. Secondary students and/or students accompanied by parents/guardians are to return home.

7. Communication of School Closure

- 7.1 Should the Communications Manager be unavailable, the following personnel are the designated back-ups (in order of call-out):
 - 7.1.1 Manager of Information Technology Services
 - 7.1.2 Office Technology Coordinator

- 7.2 In September of each year, the Communications Manager will contact media outlets to ensure procedures are in place for notification of valid school closings. Also, if possible, procedures shall be established to ensure that false reports of school closings are caught before they are reported in the media.
- 7.3 Communication with the media (television and radio) regarding emergency school closing, cancellation of buses, delayed openings, cancellation of Continuing Education classes or to advise that schools are open, will be made by the Communications Manager.
- 7.4 The Zone Superintendents or designates will initiate the Emergency Phone Fan-out.
- 7.4.1 The fan out list will be updated in October each year by the Administrative Assistants to the Assistant Superintendents. The list will include both home and cell phone numbers.
- 7.5 The Superintendent or designate will contact the Communications Manager who will:
- 7.5.1 Have the notice posted on the District website;
- 7.5.2 Have the notice recorded on the main District telephone number; and
- 7.5.3 Issue the notice via e-mail message to all staff and trustees.
- 7.6 Where the potential for emergency school closing is identified the previous day, the Superintendent or designate will contact the Communications Manager who will :
- 7.6.1 Have a notice posted on the website advising:
- 7.6.1.1 That a decision will be made by approximately 7:00 a.m. the next morning; and
- 7.6.1.2 That the decision will be posted on the website and reported on media outlets (radio and television stations); and
- 7.6.2 Have a message as per 9.5 above recorded on the main District telephone number.
- 7.7 The Director of Continuing Education will contact the Superintendent or designate for a decision regarding operation of evening/weekend classes. The Director of Continuing Education will contact:
- 7.7.1 The Communications Manager to have a notice posted on the website advising of the status of evening/weekend classes, and have the notice recorded on the main District telephone number and advise the Receptionist at the District Office;
- 7.7.2 Principals with evening/weekend classes to advise of the status of evening/weekend classes (in the event of power outages, contact will need to be by means other than e-mail); and
- 7.7.3 The Manager of Facility Services to confirm or cancel arrangements made for building access and/or custodial services.

7.8 Return to Regular Operations

- 7.8.1 Once the Superintendent or designate lifts the emergency school closing, the Communications Manager will remove the notice on the website and restore the message on the main District telephone number.

8. Busing

- 8.1 Special needs school buses will attempt to operate on their normal schedule during extreme weather days.
- 8.2 Significant changes to the regular bus schedule as a result of weather conditions will be reported on the District website.
- 8.3 Should the condition of side streets require a change to the operation of special needs school buses or any cancellation of service, media outlets will be notified and affected families will be informed by the bus operator.

9. Expectations of Staff

- 9.1 At a minimum, this administrative procedure will be reviewed by the Principal at the first staff meeting each school year.
- 9.2 Supervisors at District work sites such as the District Office, Delta Manor Education Centre and Maintenance Office will review the procedures at least once per school year by the end of October
- 9.3 All employees are expected to report for and/or remain at work during a temporary emergency closing unless otherwise instructed.
- 9.4 If the workplace is deemed unsafe or unhealthy, the Superintendent or designate may close the facility and reassign employees to an alternate location.
- 9.5 If the school remains closed the following day, District officials will develop a plan to address the problem.
- 9.6 Recognizing that individual staff members will have differing views as to when it is safe or not safe to travel to work, to a large extent based on place of residence, the District does not expect staff to report to work when they believe it is unsafe for them to do so. Staff members who do not report to work will need to access any entitlement they may have to paid leave (vacation time, banked time, discretionary days) in order to be paid for the day.
- 9.7 If a staff member is prevented from reporting to work due to a police road closure, they are to report the situation to their principal/supervisor or designate. In this situation, the staff member will be paid for the day.
- 9.8 Staff who do not report to work and who believe they have extenuating circumstances may make written application to the Director of Human Resources explaining those extenuating circumstances and requesting pay for the day.
- 9.9 All teachers, education assistants and school clerical staff who do not report for work must report their absence to the SEMS system as soon as possible.

- 9.10 If staff at one (1) or more schools/worksites are advised by the District not to report for work or are sent home, those staff will be paid for the day.
- 9.11 TOC's who have been previously assigned and not cancelled for reasons unrelated to the emergency condition are expected to report to work and will be the first to be re-assigned.
- 9.12 Administrators are expected to report to their buildings in the event of a closure in anticipation that some students will arrive and they will need to be allowed into the building while attempts are made to locate their parents.
- 9.13 Because of the differing nature of custodial staff hours of work, custodial staff unable to attend work must call the Maintenance Office and confirm their absence and the reason for it. If the usual work location is not accessible, custodial staff are to contact the Maintenance Office for instructions. If phone service is unavailable, custodial staff are to report to the nearest work site or refer to the District website if possible, for instruction.
- 9.14 Unless evening Continuing Education classes and user groups are cancelled, custodial staff are to work their regular shifts.

These systems include, but are not limited to, District computers or computers connected to District systems, software, networks and wireless networks, electronic and fibre optic systems, email and voice mail, data, and access to the Internet. Computers and information systems in schools are owned by the District. These information systems are intended for educational and/or research purposes and for conducting valid District business.

These information systems have been established to support student learning and student achievement. The intention of these systems is to:

- Support and enhance the delivery of educational services to students;
- Provide new forms of information tools to improve the efficiency and effectiveness of the business of education;
- Provide options for students to receive educational services to meet their learning styles, access requirements, and program needs;
- Enhance opportunities for staff to participate in professional development activities; and
- Communicate with partner groups and the community.

Definitions

For the purposes of this administrative procedure:

A “*system administrator*” is a person designated by the District to manage an information system and/or a member of the Electronic and Computer Services group.

The term “*authorized*” means approved by a District system administrator.

Procedures

1. Access to information systems, including Internet resources is a privilege, not a right.
2. Access is available only so long as the user complies with Board policies, administrative procedures and local, provincial and federal laws.
3. Users will conduct themselves in a courteous, ethical, and responsible manner while using these systems. All Board policies and administrative procedures, including those on harassment, equity, and proper conduct of employees and students apply to the use of information systems.

4. Inappropriate or prohibited use may lead to suspension or termination of user privileges, legal prosecution or disciplinary action appropriate under any applicable laws, policies, regulations, collective agreements or contracts.
5. Student Access to Information Systems
 - 5.1 All students may have access to District information systems through their classroom, library, or school computer lab where such access exists or from home.
 - 5.1.1 If parents do not want their child to have access to the district Network or Internet, they must inform the child's school in writing each year.
 - 5.2 The purpose of student access to the information systems is student learning and education, including, but not limited to:
 - 5.2.1 Training in the use of computer systems;
 - 5.2.2 Accessing a wide range of materials with educational value to the student; and
 - 5.2.3 Communicating with others around the District and the world to enhance the student's education.
 - 5.3 Students may be given different levels of information systems access appropriate to their educational needs.

 - 5.5 There is a wide range of material available on the Internet, some of which is offensive and in conflict with the values of some students, parents or guardians.
 - 5.5.1 Parents/guardians are advised to caution their children regarding material that they think would be inappropriate for their children to access.
 - 5.5.2 The District fully expects that students will follow their parents/guardians' instructions in this matter.
 - 5.6 The District does not filter Internet content but adheres to the Provincial Learning Network filtering protocols (http://www.bced.gov.bc.ca/plnet/o_pln_filtering.htm). The District does take reasonable steps to screen or limit access to offensive/inappropriate material while preserving the educational value of the system. However, the dynamic nature of online information services makes total regulation and control impossible. Students must be aware that:
 - 5.6.1 Activities on information systems are not private, and may be monitored or reviewed at any time. Nothing is to be done on an information system that the student does not want other students, school staff, or the District staff to see.
 - 5.6.2 It is rare but possible to accidentally access inappropriate materials. Students are to immediately report such events to District staff and then return to appropriate materials.

- 5.7 Students must accept responsibility for learning, and using, the systems appropriately for educational or research purposes. Failure by a student to comply with this administrative procedure, and any rules and regulations regarding use of the electronic system may result in suspension or revocation of access privileges and disciplinary action.
6. Staff Access to Information Systems
- 6.1 Staff are encouraged to use the electronic system in the conduct of their work, and to find innovative and effective ways to enhance education and District business.
- 6.2 Staff may use the information systems during breaks and before and after normal business hours for personal communications, research, and education purposes that do not interfere with District educational and business use.
- 6.2.1 Such access must be appropriate and legal and is subject to all parts of this administrative procedure.
- 6.2.2 Personal use is understood to be at a lower priority than educational or District business use, and subject to interruption without notice.
- 6.3 Staff are required to comply with this administrative procedure and any rules and regulations regarding use of the electronic system that are made by the District. Failure to do so may result in suspension or revocation of access privileges and disciplinary action subject to the collective agreements.

 - 8.4.1 The District will cooperate fully with any participating District, local, provincial, or federal officials in any investigation concerning or relating to any electronic files transmitted on District information systems.
 - 8.5 In cases where files have been accessed efforts will be made to inform users within a reasonable time period of any action that is taken.
 - 8.6 Parents/guardians have the right at any time to request to see the contents of their child's District email files where legally applicable.
9. System Administration
- 9.1 While circumstances might dictate that a system administrator must investigate or remove files or hardware from a computer or network without prior notice, effort will be made to inform users within a reasonable time period of any action that is taken.
 - 9.2 The District may set quotas for disk usage on any of the District information systems.
 - 9.2.1 Users who exceed their quota will be advised to delete files to return to compliance.

PORTABLE TECHNOLOGY SECURITY

Background

All staff using District information at a District location or otherwise are responsible for the management and safekeeping of information under their control by ensuring that there is adequate security to prevent unauthorized access, collection, use, disclosure or disposal of information.

Sensitive and confidential information stored on portable technology such as laptops, personal organizers, cell phones or memory sticks must be kept to an even higher standard due to the higher risk of equipment loss or theft.

Procedures

1. All password protection mechanisms available on portable technology must be activated and utilized consistently and to the greatest extent possible. Industry standards/methods are to be deployed in the selection of appropriate passwords.
2. Established passwords must be given in strict confidence to the Superintendent or designate and may not be shared with any other individual.
3. All files containing sensitive or confidential information that are stored on portable technology must be encrypted.

USE OF PERSONAL COMMUNICATION DEVICES (PCDs)

Background

Openness to new and future technologies and their educated use create opportunities for many constructive and positive uses that can aid the instructional process. Further, regulated use of some personal communication devices in the school and community may contribute to the safety and security of students and staff. However, unregulated use of such devices may pose a risk to personal safety; may disrupt instruction; may invade personal privacy; and may compromise academic integrity.

Procedures

1. Personal Communication Devices (PCDs) are not to be operated during regularly scheduled instructional time, or during any school sponsored activity, such as an assembly or talk by a guest speaker, unless such use facilitates the learning activity as permitted by the teacher.

2. PCDs are not to be taken into test or examination settings, unless students have been given permission to do so.
3. PCDs are not to be used in settings such as change rooms, washrooms, private counseling rooms, that have the potential to violate a person's reasonable expectation of privacy.
4. Students who bring PCDs to the school are expected to comply with all parts of Administrative Procedure 350 – Student Conduct and Discipline. Students who consistently refuse to comply with the District's procedures for use of PCDs in the school setting may be subject to disciplinary measures detailed in the school's rules, as well as the steps outlined in Administrative Procedure 350.
5. Principals, in consultation with staff and appropriate stakeholders (including the Parent Advisory Councils), are to formulate and implement specific procedures at each school site.
6. In the event of an emergency, such as a lockdown or an evacuation, the Principal will develop and inform the school community of the acceptable use of PCDs in that emergency situation.
7. PCDs are valuable electronic devices. The security and storage of these items is the sole responsibility of the owner/user. The District assumes no responsibility for the safety, security, loss, repair or replacement of PCDs.

Procedures

1. When a complaint arises, the parent is requested to speak first with the employee involved in an attempt to resolve the issue.
2. If satisfactory resolution to the concern is not achieved, the next step is to meet the employee's immediate supervisor.

ADVERTISING, CANVASSING AND COMMERCIAL SOLICITATION

Background

Schools, as educational institutions with a "captive" clientele, must not become vehicles for the circulation of materials intended primarily for commercial gain, nor for exploitation of students and their families by commercial, political, religious, cultural or other non-school interests. In general, therefore, the promotion of sales or support by canvassing, advertising, or by other means, on the part of any person, firm or organization on school premises is not appropriate.

Canvassing, advertising, selling or offering to sell goods, services or merchandise to staff or students requires prior approval.

Procedures

1. Distribution of materials supplied by genuine, community-oriented organizations may be authorized by the Superintendent or designate, provided that they do not demand undue disruption of school time or routine, and provided that they do not contain religiously oriented or inflammatory material which might create unfavourable community reaction.
2. Limited and selected advertising may be permitted in school or District publications, provided that it meets standards of good taste and does not conflict with educational objectives.
3. Instructional materials furnished by private sources may be utilized when they are appropriate to the curriculum and when the advertising content is reasonable relative to the primary purpose of the materials.
4. Appropriate and discreet acknowledgement may be given to firms or organizations which are involved in a formal school-business partnership.
5. It is the responsibility of the Principal to ensure that school premises are not used to display, distribute, or otherwise advertise a product, service, or function on behalf of any person, business, or organization unless the Principal is satisfied that:
 - 5.1 The display of such material will not lead to the exploitation of the students;
 - 5.2 It does not imply endorsement by the school;
 - 5.3 The primary purpose is such that it will complement the education program;
and

- 5.4 The claims in such materials are not false or misleading.
- 6. Requests for distribution involving a number of schools or the entire District are to be referred to the Superintendent.

ACTIVITY DURING ELECTION PERIODS

Background

Elections are key elements in the democratic process, providing suitable subjects for educational attention. However, since misunderstandings, conflicts, and claims of bias can also occur more easily during an election period, guidelines for staff are desirable.

While an "election period" may formally be considered the time following an election announcement, or the period following the deadline for nominations in a local election, for purposes of this administrative procedure, it may be more broadly defined as the weeks or months preceding the election.

In general, District activity is to proceed in as normal a manner as possible during an election period, with staff continuing to carry out their duties with integrity and responsibility. However, caution is required to ensure that staff will not be accused of political partiality in carrying out their duties, nor trustees of obtaining unfair political advantage in local elections.

Procedures

1. No employee of the District is to participate in campaign activity during his/her normal working hours.
2. Students, as part of a planned citizenship education program, may be informed about and carry on discussions of election processes and issues at any time. Under no circumstances are efforts to be made by staff to indoctrinate students with a particular political view nor to engage them in campaign activities.
3. District Office staff shall make available, on request, to all candidates public information which would be available to any trustee. The materials made available to one candidate will be given to all candidates. A candidate's request to a school is to be referred to the Superintendent's Office.
4. Caution is to be exercised regarding public relations activities or controversial issues which could become part of the election campaign.
5. Requests for staff to provide information for campaign purposes are to be restricted to information available to other members of the public or other candidates.

EVENT PROTOCOL

Background

The Superintendent has been given the responsibility to ensure positive external and internal communications are developed and maintained. Proper protocol is to be followed for events organized by schools. The Superintendent is to be informed whenever elected officials or dignitaries are involved in District or school events.

The success of a District or school event depends largely on good planning, as well as having a defined agenda and purpose for the event. If the event is well planned protocols normally flow smoothly.

Protocols will vary from one situation to another, depending on who is involved in the particular event. Accordingly, in the planning for an event, the order of introductions and speakers must be given special attention.

Procedures

1. When organizing a public event at which dignitaries are present, introduce the most senior dignitaries first:
 - 1.1 Members of the Senate representing British Columbia;
 - 1.2 MPs (cabinet members first);
 - 1.3 MLAs (cabinet members first);
 - 1.4 Board Chair and Vice-Chair;
 - 1.5 Mayor;
 - 1.6 Other trustees and civic councilors;
 - 1.7 Senior bureaucrats and heads of other organizations;
 - 1.8 Prominent community members.

2. When organizing an event within the District schools, the introductions will take place in the following order:
 - 2.1 Board Chair;
 - 2.2 Vice-Chair;
 - 2.3 Trustees in attendance;
 - 2.4 Superintendent, Deputy/Assistant Superintendent;
 - 2.5 Principal, Vice-Principal.

3. When organizing the order of speakers, protocols dictate that the most senior dignitary speaks last.
4. Seating is to be arranged so that the most senior dignitary is closest to the podium at all times.
5. Trustees are to be introduced at all times.
6. Provision is to be made for trustees and other important guests to be greeted by staff or students.
7. As audience members, dignitaries are to be provided with reserved seating in the front row.
8. Invitations to trustees to attend a school event are to be directed only to the liaison trustee(s) by the Principal. The role and expectations are to be defined in the invitation. Provisions for parking are to be made for dignitaries and trustees. Trustees are to be notified at least two (2) weeks prior to the event.
9. The Office of the Superintendent is to be contacted if a representative of senior staff is requested to attend a school event.
10. The trustee invitation and District Office notice is to indicate who will serve as the Master of Ceremonies (MC).
11. When no trustee is available to attend, the MC will be advised to express regrets on behalf of the Board.
12. For assistance, contact the Office of the Superintendent.

VISIT PROTOCOL

Background

The Superintendent has been given the responsibility to ensure positive internal and external communications are developed and maintained. Proper protocol is to be followed for visits that occur within the District.

Procedures

1. Royal and Other Dignitary Visits

1.1 While rare, school boards or schools occasionally may be included in royal visits (including those of Canada's Governor-General and/or British Columbia's Lieutenant Governor); visits by the Prime Minister or Premier; senior cabinet ministers; ambassadors; or other prominent dignitaries. In such circumstances, the formal protocol of either the Government of Canada or Province of British Columbia takes precedent. Information on proper protocol in these special circumstances can be obtained from the Government of British Columbia. The Superintendent must be contacted in these instances.

1.2 In these circumstances, it is expected local event organizers will ensure trustees are properly recognized and included in the event whenever possible.

2. Special Visits

2.1 The District, in recognizing its responsibilities to share educational experiences, welcomes visitors to the school system.

2.2 Visits to schools by persons from outside the school system shall be arranged by such officials as the Superintendent may appoint. Such visits will be arranged in consultation with the principals and teachers concerned.

2.3 The Superintendent will extend to visitors, at District expense, such courtesies as s/he may deem desirable.

3. General Visits

3.1 All visitors to a school are expected to make their presence known to the Principal or designate.

3.2 Signs indicating this expectation, and the direction to the school office, are to be posted at each unlocked entrance, and at other visible points in the school.

3.3 The Principal determines right of access to the school. Principals may have to restrict or refuse permission for an individual or group to visit the school.

AUTHORIZED PERSONNEL AND VISITORS

BIOHAZARD CONTROL PROGRAM, BLOOD-BORNE PATHOGENS AND POTENTIALLY INFECTIOUS MATERIALS

Background

The District recognizes its responsibility to provide as safe an environment as reasonably possible for students and employees, as well as its obligations to deal with each student and employee with equity and due regard for privacy and to protect students and employees from harmful contact with pathogenic organisms.

Procedures

1. General

Actions taken in the District to deal with communicable diseases and disease causing organisms shall be governed by the following considerations:

- 1.1 Students diagnosed with serious infectious illnesses continue to have the right to an education program and to receive the program in the least restrictive environment possible.
- 1.2 Infected employees have the right to continue their employment as long as they are able to fulfill duties without risk to themselves or others.
- 1.3 Since serious infectious illness is primarily a medical problem, the guidance of the Medical Health Officer is to be sought when planning an education program for an infected student or when determining whether it is safe, for self and others, for an infected employee to continue in his/her current duties.
- 1.4 Infected students and employees, as with any other illness, are to be provided the maximum degree of confidentiality that is compatible with the safety of other persons.
- 1.5 Specific procedures shall be communicated to all "at risk" employees concerning practices to prevent harmful contact with all blood, body fluids, secretions and excretions. Standard precautions shall be used in all situations dealing with any potentially infectious materials (See Appendix A).

2. Students Infected with Blood-Borne Pathogens [such as Hepatitis B, Hepatitis C, and Human Immuno-Deficiency Virus (HIV)]

- 2.1 The Superintendent or designate shall make a decision concerning the educational plan for the infected child in consultation with the Medical Health Officer, the student's parents or guardians, and the physicians involved in the case.
- 2.2 A more restrictive environment may be considered for infected students who have, for whatever reason, open sores or lesions, or engage in biting. This will be done on the recommendation of the Medical Health Officer.

- 2.3 Each student's educational and medical situation is to be re-evaluated by the appropriate authorities whenever necessary.
 - 2.4 The District shall make every reasonable effort to ensure that the identity of a student infected with blood-borne pathogens shall be confidential. The Medical Health Officer and the Superintendent or designate shall decide who has a "need-to-know" in each case.
3. School Personnel infected with Blood-Borne Pathogens [such as Hepatitis B, Hepatitis C, and Human Immuno-Deficiency Virus (HIV)]
- 3.1 The District may, on the advice of the Medical Health Officer, require the employee to receive a medical examination under the School Act.
 - 3.2 The Superintendent and Medical Health Officer, will consult with the infected employee regarding any work restrictions or accommodations that may be required as a result of his/her condition.
 - 3.3 The employee may choose to take medical leave or long-term disability leave, or any other benefits to which s/he may be legally entitled.
 - 3.4 The District shall make every reasonable effort to ensure that information concerning the health as well as the identity of any infected employee shall be kept confidential. The Medical Health Officer and Superintendent or designate shall decide who has a "need-to-know" in each case.
4. Public Information
- 4.1 In the event that concern arises within the community about an infected student or staff member, the Principal, without confirming whether or not there is an infected person within the school, shall provide information and support to parents utilizing the professional health advice available from the Medical Health Officer and the District.
 - 4.2 The Zone Superintendent shall also be notified.
5. Managing Potential Exposure
- 5.1 Where there is reasonably anticipated risk of harmful contact with Potentially Infected Materials (PIM), the District must develop and implement an exposure control plan meeting the requirements of the Workers' Compensation Board Regulation.
 - 5.2 Where exposure to a blood-borne pathogen is anticipated, the District will evaluate the prevalence of the anticipated exposure.
 - 5.2.1 Where all workers in a classification (e.g. custodians or teaching assistants) have occupational exposure, it is not necessary to list work tasks.
 - 5.2.2 Where only some workers in a classification (e.g. teachers) have occupational exposure, the specific tasks and procedures causing an expected exposure must be listed.
 - 5.2.3 Risk to an unprotected worker must be assessed.

- 5.3 The job classifications with occupational exposure are: Custodians, First Aid Attendants, Principals and Teaching Assistants in Special Programs.
- 5.4 Procedures that involve occupational exposure, including response to incidents where clean up of blood or body fluids or substances, may be the responsibility of a designated respondent. While respondents could be members of any worker group or classification, designated respondents have occupational exposure.
- 5.5 Control procedures include engineering controls and work practice controls personal protective equipment; Standard Precautions; and decontamination and disposal procedures.
- 5.6 Engineering controls refer to heating, ventilating and air-conditioning (HVAC) equipment as well as exhaust or fume hoods in shops or laboratories.
 - 5.6.1 Control of biohazards through HVAC controls is normally an 'indoor air quality' (IAQ) concern and is dealt with in the IAQ procedures.
 - 5.6.2 Sharps containers and tongs are also engineering controls.
- 5.7 Work practice controls include but are not limited to:
 - 5.7.1 Ensuring only trained persons respond to biohazardous incidents;
 - 5.7.2 Ensuring others are kept away from infectious materials;
 - 5.7.3 Ensuring placement of barriers, cones or signs;
 - 5.7.4 Donning Personal Protective Equipment (PPE) before responding or entering a potentially infectious area; and ensuring that clean-up and disposal procedures are followed.
- 5.8 Personal Protective Equipment (PPE)

When establishing the PPE procedures, the following must be considered:

 - 5.8.1 Does the PPE prevent blood or other potentially biohazardous material from passing through a worker's clothes, street clothes, undergarments or reaching an employee's skin, eyes, nose, mouth or other mucous membranes?
 - 5.8.2 Has the PPE been selected and used in accordance with the manufacturer's instructions and recognized standards?
 - 5.8.3 Does the PPE in itself create a hazard to the wearer?
 - 5.8.4 Does the PPE cause allergenic or other adverse health effects?

Refer to Administrative Procedure 161 – Appendix A for detailed procedures regarding Transmission Prevention and the use of PPE.
- 5.9 The District shall provide vaccination against the Hepatitis B Virus as required by the OHS Regulation in accordance with established protocols.

6. Training

- 6.1 The OHS Regulation requires the District to inform workers about the contents of the exposure control plan and to provide them with adequate education and training to work safely with and in proximity to potentially biohazardous material.
- 6.2 Education and training shall be provided before a worker begins work with or in proximity to potentially biohazardous material.
- 6.3 The District shall review the exposure control plan at least annually and update it as necessary.
- 6.4 Refresher training may be provided annually or whenever the exposure control plan is updated.

7. Response to Exposure Incident

- 7.1 Every person contacting a PIM in an exposure incident must be advised to seek medical evaluation at a hospital emergency department. Immediate first aid, reporting and documentation of the incident must be undertaken.
- 7.2 For direct unanticipated exposure to biohazardous or other potentially infectious material, the individual is to immediately thoroughly wash all exposed areas and report the incident to the employee supervisor.
- 7.3 Emergency medical attention is to be sought within two (2) hours so that the individual can be assessed by a physician to determine what risk of infection exists.
- 7.4 The medical evaluation will be based on an assessment of the risks associated with the incident, and subsequent post-exposure health management must be provided as necessary.

8. Record Keeping

- 8.1 The District will retain records of all workers who are exposed in an exposure incident to biohazardous or other potentially infectious material as well as of worker education and training sessions on biohazardous materials as required by the OHS Regulation.
- 8.2 Training records are to include date(s) of training, content or a summary of the training sessions, type of education and training (for example classroom, video, interactive, or on-the-job), names and qualification of those conducting the training, and names, job titles and work locations (departments) of workers attending the sessions.

Administrative Procedure 161 – Appendix A

STANDARD PRECAUTIONS

Refer to Administrative Procedure 161 –
Section 7 for Response to Exposure Incidents.

Definitions

Biohazardous materials are pathogenic organisms that may cause disease in humans. They include organisms that are present in human blood or other body fluids, secretions and excretions that would be classified in risk group II, III or IV as specified by the Medical Research Council of Canada (MRCC) – see Administrative Procedure 161 Appendix B.

Blood-Borne Pathogens are disease causing organisms that are present in human blood or human blood components.

Decontamination is the use of physical or chemical means to remove viable microorganisms from surfaces or materials. Three methods are available: sanitization, disinfection and sterilization. Sterilization cannot be achieved in the school setting.

Disinfection is cleaning and disinfecting, with appropriate products and procedures, surfaces such as floors, woodwork and countertops which have become soiled. Environmental surfaces (normally contacted only by intact skin) should be disinfected to a level that destroys most bacteria, some viruses, some fungi, but not Mycobacterium tuberculosis or bacterial spores. This level of disinfection is appropriate for the sanitization or decontamination of school surfaces.

Exposure Incident is any actual contact of potentially infectious material with unprotected skin or mucous membranes.

Occupational exposure is the reasonably anticipated risk of harmful contact with blood or other potentially infectious material as a result of the performance of an assigned or regular job duty. Harmful contact through occupational exposure is reasonably anticipated for all First Aid Attendants, but does not include, for example; a worker (other than a first aid attendant) who might help a co-worker or student with a sudden nosebleed.

Organisms that cause disease or are reasonably believed to cause disease in persons are considered 'biohazardous infectious materials' under the WHMIS regulation (Division 3 of Class D).

Pathogens are organisms that cause, or are believed to cause, disease in humans.

Personal Protective Equipment (PPE) refers to items worn or used by persons to prevent the harmful contact of Potentially Infectious Materials. PPE for standard precautions includes: gloves, aprons, masks and eye protection.

Potentially Infectious Materials (PIM's) include vomit, urine, feces, saliva, semen, vaginal secretions, cerebrospinal fluid, pleural fluid, pericardial fluid, peritoneal fluid and amniotic fluid.

Sanitization refers to the reduction of microbial contamination to levels judged safe by public health authorities.

Sharps Container is a rigid walled container used for the collection and disposal of needles and other sharp items that may have been exposed to PIM's.

Standard Precautions refers to a system of precautions designed to protect persons from harmful exposure to Potentially Infectious Materials. It is an expansion of universal precautions and body substance isolation procedures and assumes all body fluids and byproducts (other than sweat) to be infectious.

Standard Precautions represents a system of barrier precautions to be used by all personnel to prevent harmful contact with blood, all body fluids, secretions, excretions, non intact skin, and mucous membranes of **all** persons, regardless of their health or diagnosis. These precautions are the "standard of care."

Standard Precautions focuses on reducing the risk of transmission of pathogenic micro-organisms. The use of barriers is determined by the level of potential contact with body substances and shall be governed by the following considerations:

- The purpose is to reduce the transmission of infectious agents within the District.
- All staff with 'occupational exposure' will incorporate Standard Precautions into operating procedures.
- Training concerning Standard Precautions principles will be given to newly hired employees at risk of contacting infectious materials. Documentation of training will be maintained by the individual departments.
- Standard Precautions will be followed by all personnel and will be based on the degree of anticipated exposure to body substances. It is the responsibility of the individual to comply with Standard Precautions by following written work procedures and instructions.

Virox refers to a freshly made solution of Virox Technologies "Accelerated hydrogen Peroxide 5" DIN 02239828 at a 1:16 dilution ratio as directed on the product label.

Transmission Prevention

1. Hand Washing

- 1.1 Because infections are most frequently spread by contact and the most common form of contact is hand contact, hand washing is the most important and most effective means of preventing transmission of organisms.

- 1.2 To minimize the body's response to abrasion, detergent contact or heat, a mild soap and cool or tepid water are recommended for all hand washing.
 - 1.3 Indications for hand washing and hand antisepsis include:
 - 1.3.1 Before having direct contact with potentially infectious material.
 - 1.3.2 Before donning gloves and performing first aid or any clean up.
 - 1.3.3 After removing gloves and other personal protective equipment.
 - 1.3.4 After contact with body substances or articles/surfaces contaminated with body substances.
 - 1.3.5 After contact with patient's intact skin (i.e. examining any person who reports for first aid).
 - 1.4 Hand Washing Procedure with Liquid or Foam Soap:
 - 1.4.1 Wet hands first with cool or tepid water.
 - 1.4.2 Apply soap sufficient for lather to cover all surfaces of hands and wrists.
 - 1.4.3 Rub hands together covering all surfaces of the hands and fingers with special attention to areas around nails and between fingers for a minimum of fifteen (15) seconds.
 - 1.4.4 Rinse well with running water.
 - 1.4.5 Dry thoroughly with paper towel.
 - 1.4.6 Use paper towel to turn off faucet.
 - 1.4.7 Avoid using hot water as repeated exposure to hot water may increase risk of dermatitis.
2. Personal Protective Equipment (PPE)
- 2.1 Gloves

Gloves used to prevent transmission of pathogens must be disposable (single use) gloves and shall be readily available in medical and/or First Aid rooms. Vinyl or latex gloves are used for all activities requiring protection during routine First Aid and custodial tasks where contact with blood and body fluid is likely. Vinyl and latex gloves are equally effective in preventing skin contact with microorganisms.

 - 2.1.1 Gloves must be worn for:
 - 2.1.1.1 Anticipated contact with moist body substances, mucous membranes, tissue and non-intact skin of all patients.
 - 2.1.1.2 Contact with surfaces and articles visibly soiled/contaminated by body substances.
 - 2.1.2 Gloves are to be donned immediately prior to task.
 - 2.1.3 Torn, punctured or otherwise damaged gloves are to be replaced immediately.

- 2.1.4 Gloves are to be removed and discarded after each individual task involving body substance contact and before leaving the work area.
- 2.1.5 Hand-washing is to occur as soon as possible after glove removal, or removal of other protective equipment.
- 2.1.6 Gloves are not to be washed or decontaminated for reuse except utility gloves for custodians.
- 2.1.7 Gloves do not provide protection for puncture wounds caused by sharp objects. Use extreme caution when handling sharp objects or when providing First Aid to a person with a puncture wound.
- 2.2 Masks, Eye Protection and Face Shields
 - 2.2.1 Masks are to be worn in combination with eye protection devices; face shields, goggles or glasses with side shields during First Aid procedures that are likely to generate droplets, spray, or splash of body substances to prevent exposure to mucous membranes of the mouth, nose and eyes.
- 2.3 Protective Aprons

Protective aprons prevent contamination of clothing by blood/body fluid exposure and are:

 - 2.3.1 To be worn during First Aid and/or cleaning procedures that are likely to soil clothing with body substances; and
 - 2.3.2 Removed before leaving the immediate work area.
- 3. Environment
 - 3.1 Waste Disposal
 - 3.1.1 All potentially infectious waste material shall be placed into double bags, securely tied and discarded into the general waste.
 - 3.2 Spill Management
 - 3.2.1 Spills of body substances are to be cleaned up promptly. Workers are to wear gloves, apron and mask and use other protective equipment if there is risk of splash.
 - 3.2.2 Encapsulator products may be used to solidify or pick up liquid waste. Excess materials are to be removed with disposable absorbent towels, and then soaked with Virox solution (1:16) for thirty (30) seconds. Wipe dry and repeat application of Virox solution (1:16) and allow to remain wet for five (5) minutes.
 - 3.2.3 Schools without custodians must initiate clean up procedures by site personnel. All contaminated surfaces shall be cleaned and decontaminated with Virox solution as in 3.2.2.
 - 3.2.4 Workers removing potentially infectious materials from school grounds must follow protocols for hand hygiene, glove use and disposal.

- 3.2.5 Workers removing PIM's that are sharp (used needles, broken glass contaminated with blood) must also use tongs or other devices to pick up materials and transfer them directly into a puncture resistant container enclosed on all sides or equipped with a lid.

3.3 Handling and Disposal of Sharps

- 3.3.1 Sharp disposal is the responsibility of the user/handler of the sharp.
- 3.3.2 Puncture-resistant sharps containers are readily available in all medical or first aid rooms.
- 3.3.3 Do not place sharps in the regular trash.
- 3.3.4 Take the Sharps Container to the location of the sharp; dispose of at point of use or collection.
- 3.3.5 Do not overfill Sharp Containers.
- 3.3.6 Look closely at the sharps container before placing a used sharp inside to assure that nothing is protruding from the container or that the container is not overfilled.
- 3.3.7 When Sharps Container is two-thirds (2/3) full (to "full" line), close securely and contact Custodial Services at 604-946-5088 for disposal. Request replacement sharps container if one is not already available.
- 3.3.8 In order to ensure Sharps Container safety, Sharp Containers are to be kept only in the medical room.
- 3.3.9 Broken glass contaminated by blood will not be directly handled with gloved or bare hand. It will be handled by mechanical means (tongs, dust pan and broom). Contaminated broken glass will be placed in a puncture-resistant container and disposed of in regular waste.

3.4 Cleaning Vomit and Body Waste

Individuals who clean up vomit or feces must minimize the risk of infection to themselves and others by:

- 3.4.1 Wearing disposable gloves and plastic disposable apron or water-resistant gown and mask.
- 3.4.2 Using paper towels to soak up excess liquid. Transfer these and any solid matter directly into a plastic garbage bag.
- 3.4.3 Cleaning the soiled area with detergent and water, using a "single-use" cloth.
- 3.4.4 Disinfecting the contaminated area with freshly made Virox solution.
- 3.4.5 Disposing of gloves and depositing apron/cloths into a garbage bag.
- 3.4.6 Washing hands thoroughly using soap and warm running water for at least thirty (30) seconds.

If cleaning up vomit in food preparation areas:

- 3.4.7 Disinfecting the area (including vertical surfaces) with freshly prepared Virox solution.

- 3.4.8 Disposing of any exposed food (food that has been handled by an infected person or food that may have been exposed to the virus by someone vomiting in close proximity).
- 3.4.9 Washing all dishes, utensils and trays in a commercial dishwasher – with hot water rinse of at least 60°C (140°F), being careful not to cross-contaminate dirty to clean dishes.

Background

Tobacco use and smoking are addictive practices and tobacco use in the school and work environments is not conducive to good health. Activity mimicking smoking behaviours as in the use of e-cigarettes, also are not conducive to good health.

Procedures

1. Smoking and the use of tobacco in all its forms is prohibited on any District owned or leased property, within any District owned or leased building, or within any District owned or leased vehicle.
 - 1.1 This prohibition applies to all staff, students, visitors, facility renters and users, contractors and other members of the public at all times, including evenings and weekends.
2. The only exemption to this administrative procedure is the ceremonial use of tobacco where that activity is performed in relation to a traditional aboriginal cultural activity, or performed by a prescribed group for a prescribed purpose.
3. Participation in tobacco cessation programs is encouraged and instruction on the hazards of tobacco use will be provided for students in all schools.

EMERGENCY DRILLS

Background

In emergencies, the safe and speedy evacuation of occupants from a building is essential. Successful evacuation is dependent upon a practical plan practised often enough that it will be followed in cases of real emergency. As in any emergency, it is recognized that all staff members have a responsibility for the care and safety of students.

Procedures

1. All emergency drills must be conducted in conformance with approved procedures detailed in the District Emergency Preparedness Manual, recorded and a file maintained in the school office for viewing by the Fire Inspector. Copies of all drill reports must be faxed or emailed to the District Emergency Planner.
2. Prior to school start-up each September, the Principal/Site Manager shall ensure that:
 - 2.1 The site Emergency Plan has been reviewed and updated;
 - 2.2 An orientation session with staff outlining the site emergency plan and drill procedures is held;
 - 2.3 A hazard assessment of the site is conducted by the site Occupational Health and Safety Committee; and
 - 2.4 First aid supplies are replenished.
3. All evacuation drills must involve:
 - 3.1 The calm, quiet, orderly exiting of the building using predetermined and alternate routes (in the event of blockage). School classes are to remain in formation;
 - 3.2 The mustering of students and/or staff in designated evacuation areas and taking of attendance; and
 - 3.3 No re-entry into the building until three (3) bells have rung, signaling the conclusion of the drill.
4. Where a potential hazard is discovered during the course of the drill, the Principal/Site Manager shall take immediate action to have the matter remedied.
5. Fire Drills and Automatic Alarm Systems
 - 5.1 In accordance with the B.C. Fire Code, school evacuation drills shall be held at least three (3) times in each of the fall and spring school terms for a total of six (6) times per school year.

- 5.2 There is to be at least one (1) planned fire drill at the commencement of each school year.
- 5.3 All alarms are automatically relayed to the Monitoring Station which in turn informs Delta Fire and Emergency Services.
- 5.4 Prior to a fire drill or alarm test, the Monitoring Station (604-731-4126) must be notified as to the date and time of the drill or test. The Monitoring Station will advise Delta Fire and Emergency Services accordingly.
- 5.5 Prior to the fire drill, the Principal/Site Manager or designate will ensure the fire alarm panel is unlocked (to enable reset at drill conclusion), and trip the alarm by opening a pull station using the special key and activating the toggle switch.
- 5.6 After the fire drill is completed and the pull station and fire alarm panel re-set, the Principal/Site Manager or designate will contact the Monitoring Station to verify that they received the call and to advise that the test is now completed.
- 5.7 An evaluation of each drill is to take place, with staff advised of any improvements needed before the next drill.

6. Earthquake Drills

- 6.1 Classroom earthquake drills shall be held at least twice each year, once in September and once in January.
- 6.2 Full evacuation earthquake drills shall be held at least annually, during Emergency Awareness Week (first week in May).
- 6.3 The DROP, COVER AND HOLD method will be immediately deployed when earthquake drills are announced over the public address system or at the onset of a seismic event.
- 6.4 Upon completion of each earthquake drill, an evaluation of the drill through debriefing of staff, including students and/or parents as appropriate, is to be conducted, with any improvements needed documented for future reference.
- 6.5 A completed Situation Report (Form 166-1) must be faxed or emailed to the District Emergency Planner upon completion of the May drill.

LOCKDOWNS

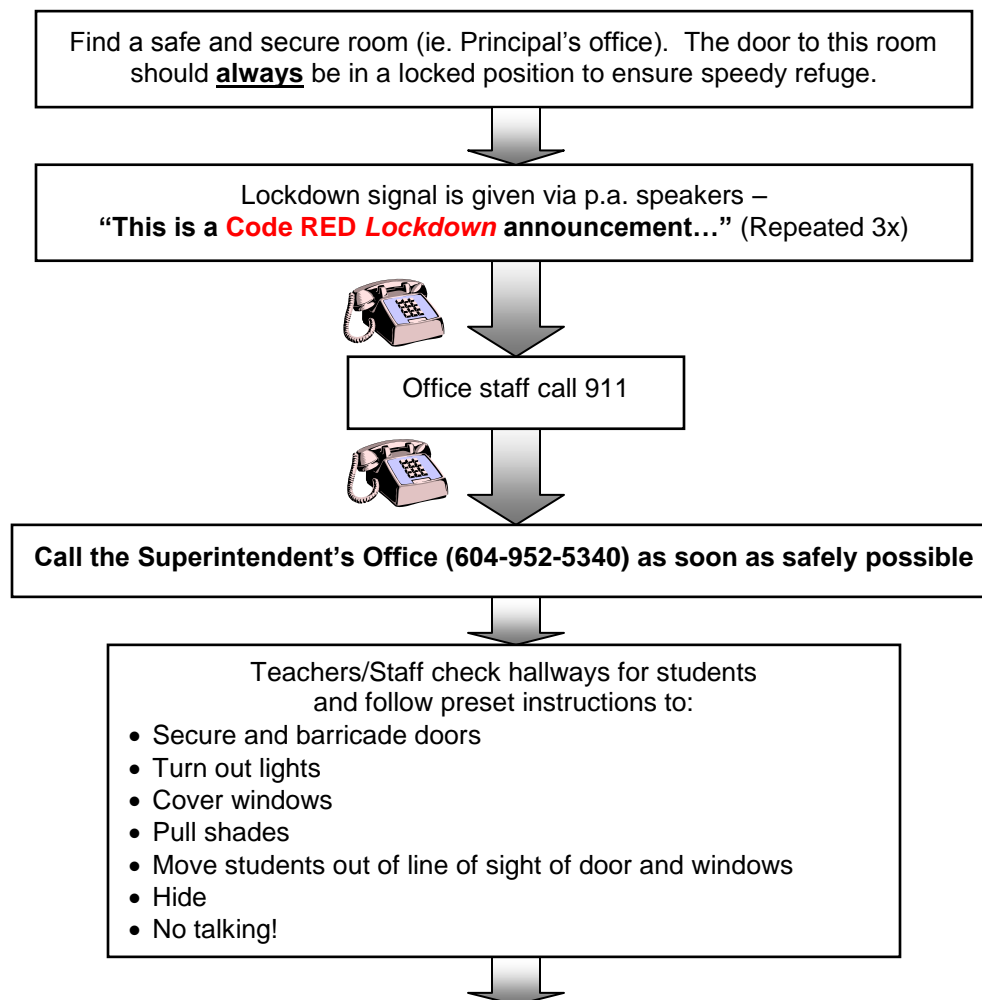

District Action for Emergencies (SAFE) Plan

EMERGENCY PROTOCOL

CODE RED - LOCKDOWN

This procedure is used when there is an immediate and imminent threat to the school building population. School staff and students are secured in the rooms they are currently in and no one is allowed to leave until the situation has been safely resolved or evacuated safely. Most commonly implemented when building has an intruder.

Steps to implement Lockdown after a threat has been identified:

NOTE: When evacuating leave with hands up until clear of police perimeter.

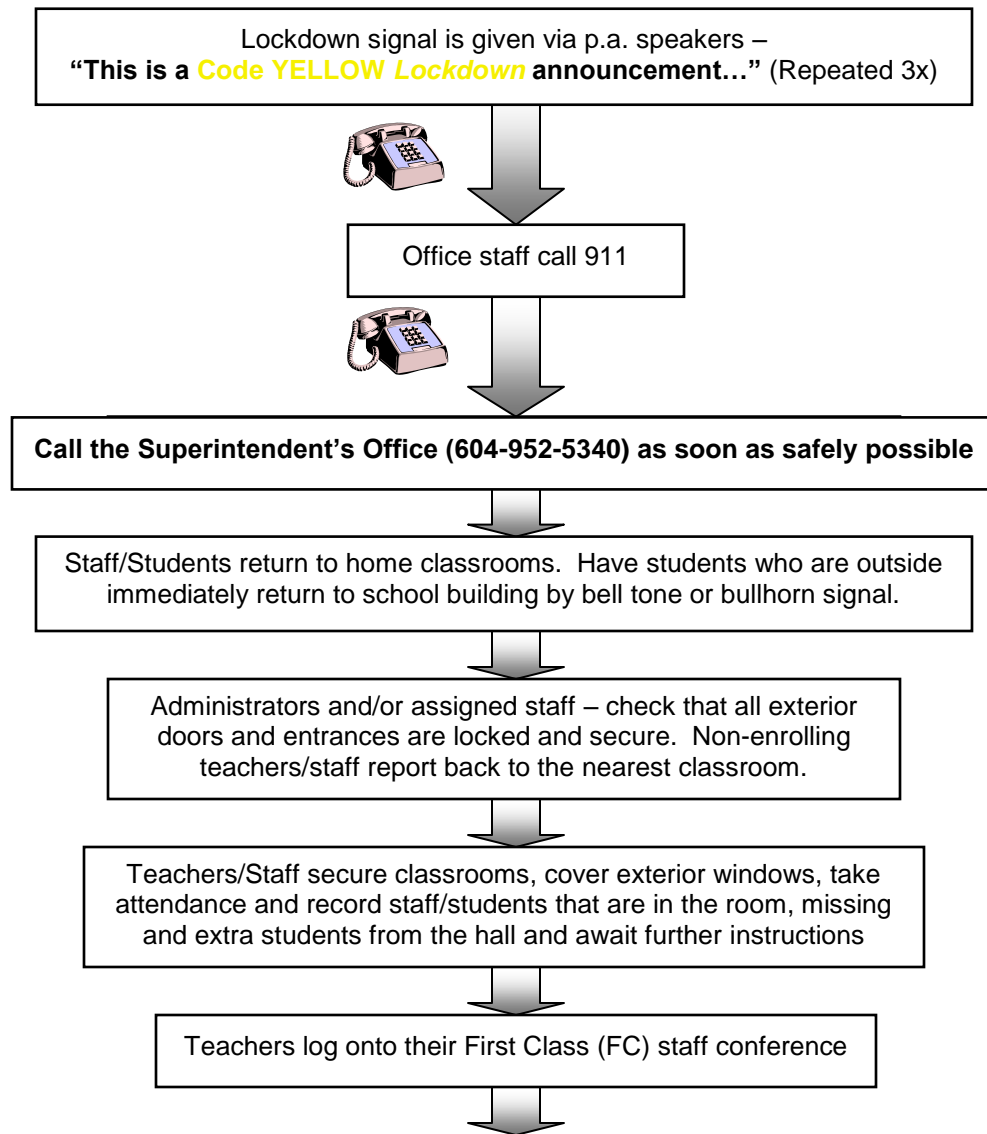

“Code GREEN - All clear” x3 on p.a. and FC. Called only after building is secured and most have been evacuated by police. Only open/come out for identified police officer.

District Action for Emergencies (SAFE) Plan

EMERGENCY PROTOCOL **CODE YELLOW - LOCKDOWN**

This is a procedure, which allows the school to continue with the normal school day, but forbids outside activity and unnecessary room to room transit. No unauthorized personnel are to enter the building. Most commonly used when incident is occurring outside school building, on or off school property, and there is no immediate or active threat.

Steps to implement Lockdown after a possible threat has been identified:

Students do quiet seatwork. Do not open doors (no bathroom/drinks).
Ignore fire alarms unless 1st hand knowledge of fire or e-mailed
information to respond. If exiting, go to rally point – not grounds.

Monitor main entrance and allow only AUTHORIZED
personnel into building through this point

NOTE : **Code YELLOW** may move to **Code RED** should threat become immediate and active.

“Code GREEN - All clear” x3 on p.a. and FC.
Called only after threat has been resolved.

Code RED - Lockdown

This procedure is used when there is an immediate and imminent threat to the school building population. School staff and students are secured in the rooms they are currently in and no one is allowed to leave until the situation has been safely resolved or evacuated safely. Most commonly implemented when building has an intruder.

Steps to implement Lockdown after a threat has been identified:

1. Lockdown signal is given via p.a. speakers –
"This is a Code RED Lockdown announcement ..." (Repeated 3x)
2. Office staff call 911.
3. Call the Superintendent's Office or as soon as safely possible.
4. All persons report to nearest securable room.
5. Teachers/Staff check hallways for students and follow preset instructions to:
 - Secure and barricade doors
 - Turn out lights
 - Cover windows
 - Pull shades
 - Move students out of line of sight of door and windows
 - Hide
 - No Talking!
6. Teachers/Staff are not allowed to open doors for ANYONE under ANY circumstances (monitor conference for instructions).
7. Teachers/Staff take attendance and record staff/students that are in the room, missing and extra students from the hall and await further instructions.
8. Teachers/Staff log onto their Staff Conference on First Class (FC) and monitor for updates.
9. All activities cease. Ignore Fire alarms unless 1st hand knowledge of fire or e-mailed information to respond. If exiting, go to rally point – predetermined site or to where directed by police.
10. Students/Staff outside building must evacuate to a predetermined, off-campus, location. This includes field trips. Rally point may change under direction of police.
11. In the event of an Active **Shooter/Homicide in Progress**:
 - a. Follow instructions above. Stay secure/barricaded and hidden!
 - b. Proximity = Jeopardy. In the presence of deadly threat, discretion to remain in lockdown, confront the intruder or to evacuate immediately leave by means other than hallways may have to be exercised.
 - c. Go to the rally point.

NOTE: When evacuating leave with hands up until clear of police perimeter.

12. **Code GREEN** – All Clear x 3” on p.a. and FC. Called only after building is secured and most have been evacuated by police. Only open/come out for identified police officer.

Code YELLOW - Lockout

This is a procedure, which allows the school to continue with the normal school day, but forbids outside activity and unnecessary room to room transit. No unauthorized personnel are to enter the building. Most commonly used when incident is occurring outside school building, on or off school property, and there is no immediate or active threat.

Steps to implement Lockout after a possible threat has been identified:

1. Lockout signal is given via p.a. speakers –
"This is a Code Yellow - Lockout announcement..." (Repeated 3x)
2. Office staff may call 911 and then call the School Board Office.
3. Staff/Students return to home classrooms. Have students who are outside immediately return to school building by bell tone or bullhorn signal.
4. Administrators and/or assigned staff - check that all exterior doors and entrances are locked and secure. Non-enrolling teachers/staff report back to the nearest classroom.
5. Teachers/Staff secure classrooms, cover exterior windows, take attendance and record staff/students that are in the room, missing and extra students from the hall and await further instructions.
6. Teachers log onto their First Class (FC) staff conference.
7. Students do quiet seatwork. Do not open doors (No bathroom/drinks). Ignore fire alarms unless 1st hand knowledge of fire or e-mailed information to respond. If exiting, go to rally point – not grounds.
8. Monitor main entrance and allow only AUTHORIZED personnel into building through this point.

NOTE : Code YELLOW may move to Code RED should threat become immediate and active.

9. "Code GREEN – All Clear x 3" on p.a. and FC. Called only after threat has been resolved.

Administrative Assistants: Code Red/Yellow

In the case of a **Code Red** - Administrative Assistants must secure their **safety first**. Go to a secure room. This would not necessarily be the Principal/Vice-Principal's office and does not need to be a room with a computer.

Principal/Vice-Principal's office doors should always be locked so that it need only be closed to be secure.

Once you are secure, if you feel safe and are able to, announce "This is a **Code Red**" (repeat 3 times) (this announcement code be a deterrent for the intruder). If you still feel it is safe for you – call 911 inform them it is a **Code Red** and name your school. If you do not feel it is safe to say more – do not say anything else. If you still feel it is safe, call the Superintendents office (604-952-5340) informing them of the situation.

In a **Code Red** **do not** answer the phone, lights out and be quiet.

The First Class Emergency Conference is a secondary concern and most important once the police have the situation under control. Monitor it only if you feel it is safe for you to be using a computer.

The police will not communicate with school staff until the situation is under control. They will probably be in contact with the SBO first and the SBO may send an update to the staff emergency conference.

Once the situation is under control they may come to the office to review the First Class Emergency Conference and if you have not been monitoring it they could at that time secure a computer for you to use.

A **Code Yellow** could be many different things so you will need to assess the situation and make a decision as to what you should do – always, your safety first.

In a **Code Yellow** the announcement "This is a **Code Yellow**" (repeat 3 times) needs to be made by an Administrator or Administrative Assistant and calls to the police and the Superintendents office (604-952-5340) informing them of the situation.

In a **Code Yellow** staff need to monitor the First Class Emergency Conference until an "**Everyone Accounted For**" message is posted by an administrator/administrative assistant. Once staff receives this message they can continue teaching/quiet activities in their classroom.

In elementary schools it may be easier to record the information on the First Class Emergency Conference if teachers entered their **Division #** and Room # (if they know it) under *Classroom #*. Division #'s would be quicker to check off. Staff in offices should enter the room/office # but if they do not know the room number they should not open the door to find it they should just give the room description (e.g. L.A. Room)

Education Assistants should have a classroom key so that they can get themselves and the students they are working with to a safe location. They should also be reminded to inform the teacher that is reporting into the First Class Emergency Conference to report that they are in the classroom.

The District Action for Emergencies (SAFE) Plan – EMERGENCY PROTOCOL reads that the **Staging Area** is "Established by Police". The Staging Area is actually established by the **school** and your Assistant Superintendent should be informed of its' location. Also the Staging Area should be **near** the school, **not at** the school. Police recommend it be at a community centre, if one is close enough, and should **not** be another school.

5. Principals may wish to include an item in a regular newsletter to parents to make them aware of this process, for example:

"Occasionally it becomes necessary to alert parents regarding incidents which have occurred, and of which the Delta Police feel that parents in a specific school or area should be made aware.

In such cases it is the District practice to send appropriate information to parents by a letter or email, which is approved both by the Delta Police and the District.

Hopefully, these occasions will be rare, but please be assured that you will be kept informed as necessary."

3. What to do When a Violent Incident Occurs

- 3.1 Where an employee has been trained in Crisis Prevention and Intervention (CPI) to respond to violence, threats of violence or similar situations, the employee's actions and responses will be guided by such training.
- 3.2 In the case where an employee is faced with violence or similar situation without said training, s/he is to remove him/herself from the situation immediately and report such incident as follows:

5. Threat Assessment of Potential for Violence by a Student

The assessment of students to determine the risk of violence towards staff and students can occur at any time throughout a student's career in school. The following procedures address the assessment of risk of student violence.

5.1 New Student Intake

- 5.1.1 The Special Programs Coordinators liaise with staff from preschools to determine if any new children coming into school present a risk of physical aggression.
- 5.1.2 Other students new to the District have a file review (conducted by the Counselor of Mainstream Support Teacher in the receiving school) to determine if they are at risk for aggressive behaviour.
- 5.1.3 Students with disabilities that may encompass challenging behaviours are identified to the appropriate school staff (Principal, Counselor or regular or resource room teacher).

THREAT ASSESSMENT SCREENING AND REPORTING

LEVEL 1

The School Threat Assessment Team will initiate a Level 1 Threat Assessment Screening *when a student makes a threat, or if there is **concern** that a student may be about to act out violently or has acted out violently*. Information is to be shared amongst all members of the Building Team, as this is essential to the effectiveness of the Threat Assessment Screening and to the development of an Intervention Plan. The School Threat Assessment Team is directed by the School's Threat Assessment Coordinator and consists of:

- Administrator (Principal, Vice-Principal)
- School Police Liaison Officer
- School Counselor
- Teacher or other person who knows the student

This Threat Assessment Screening will guide your inquiry, document concerns, and help you develop an Intervention Plan to maximize student safety. Contact administrative officers as necessary for guidance. **Actively seek** information from:

- Current and previous school/discipline records
- Law Enforcement, Probation, Diversion, etc.
- Interviews with school staff, students, parents, the target of the threat, the student of concern
- Searches of the student(s), lockers, and cars
- Other agencies: mental health, human services, etc.
- Activities: internet histories, diaries, notebooks
- Parent/Guardian interview: offer support, seek their help in understanding, clarify interest in/access to weapons

***THE INTERVENTION MUST BE DEVELOPED IN A TIMELY MANNER.
STUDENTS WHO ARE SUSPENDED FROM SCHOOL DURING THE
THREAT ASSESSMENT PROCESS MUST RETURN TO SCHOOL
WITHIN FIVE DAYS, UNLESS THE ASSESSMENT INDICATES
OTHERWISE.***

Step 1: Make Sure All Students Are Safe

- Appropriately detain the student(s).
- If there is imminent danger; call the Delta Police School Liaison Officer.
- Do not allow access to coats, backpacks, or lockers

Step 2: Notify the Student's Parents(s) or Guardian(s) of threat makers and targets(s)

- Parents/guardians have been notified of the situation and this screening.
- Parents/guardians have NOT been notified because:
- Notify District Threat Assessment Team (Special Programs). If unavailable, continue with Threat Assessment Screening.

Step 3: Interview witnesses including all participants directly and indirectly involved.

- If threat maker is unknown, proceed to Step 5.

Step 4: Initiate the Level 1 Threat Assessment Screening

The purpose of this process is to determine whether a student poses a threat to the safety of others. Does the student appear to have the resources, intent, and motivation to carry out the threat? Is there evidence of attack-related behaviours that suggest movement from thought to violent action? Document and discuss all warning signs that apply.

Step 5: Review Findings with the School Threat Assessment Team

Convene the School Threat Assessment Team and discuss all relevant information regarding the student. As a team, ask the question: *"To what extent does the student pose a threat to school/student safety?"*

Step 6: Decide on a Course of Action

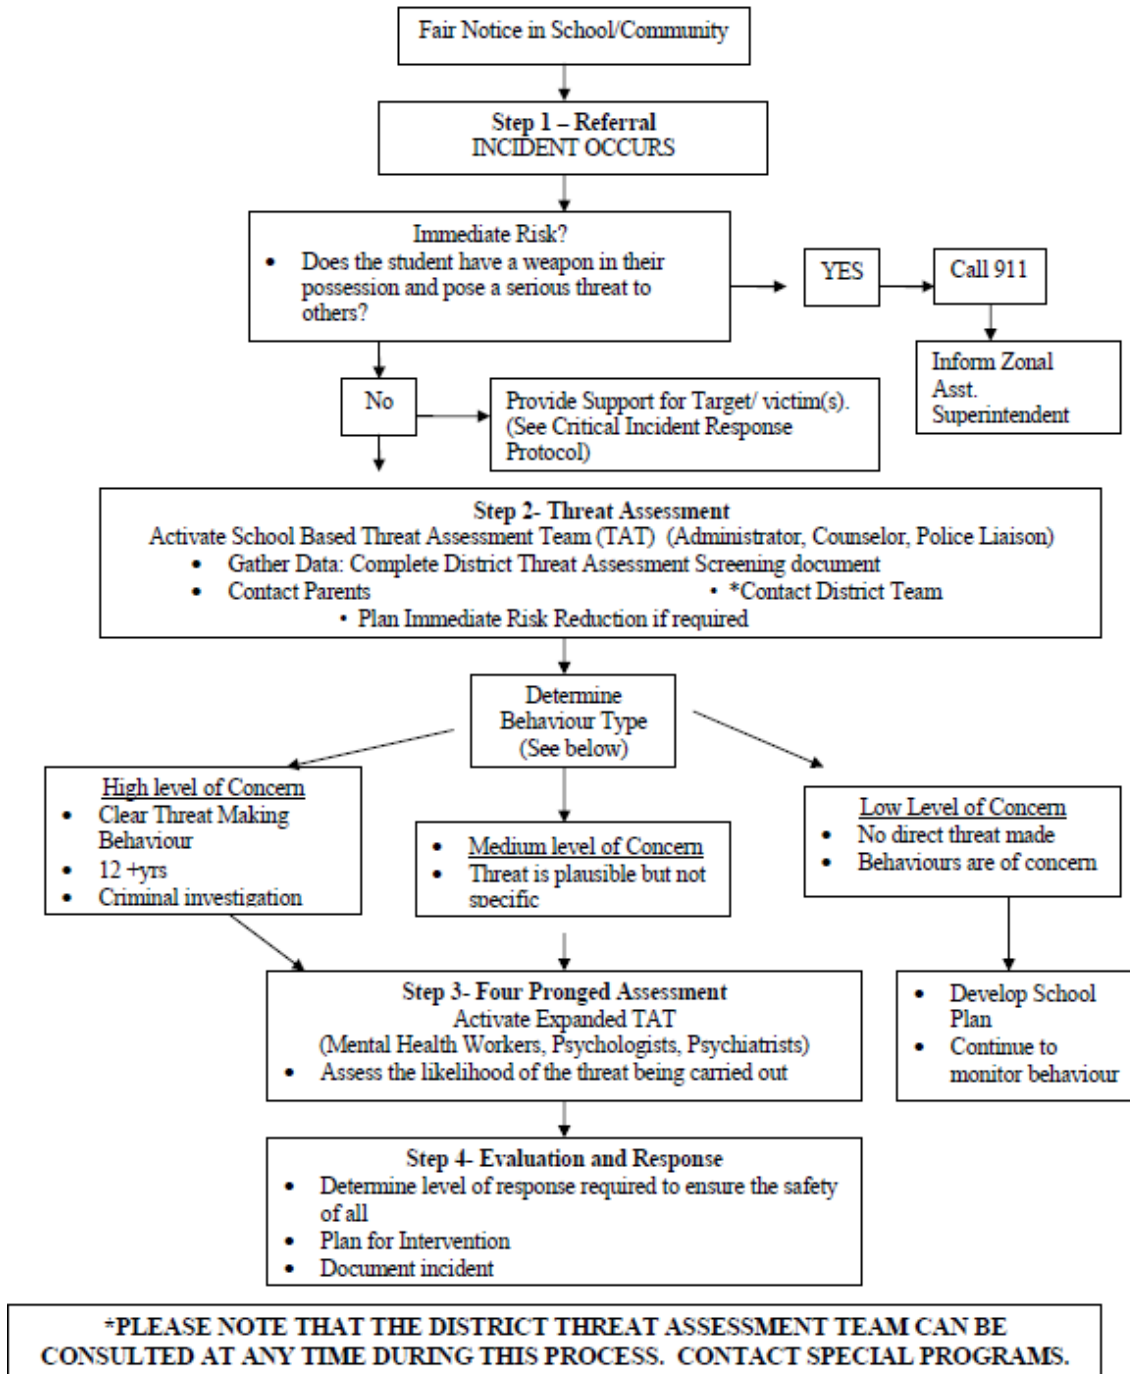

With the input of **all** School Threat Assessment Team members, decide on a course of action. If there is a low to medium level of concern, the student can likely be managed at school with appropriate (increased) supervision.

Step 7: Develop an Intervention Plan

Step 8: FAX completed screening document and Note to File document to the District Threat Assessment Coordinator at (604) 946-7803 or email to: dgalezka@deltasd.bc.ca

ASSESSING HIGH RISK STUDENT BEHAVIOUR

The following procedures will guide our practice in dealing with high risk student behaviour. We will respond to all threats following the guidelines below:

1. All District employees having knowledge of threat making behaviour must promptly report the information to the Principal or designate.
2. School personnel have received training in threat assessment. As a result all schools have the capacity to conduct an initial review of information to determine what further steps need to be taken. *(If necessary, complete Form 170-3 – Threat Assessment Reporting Document)* The school team would be comprised of administrators, counsellors, school psychologists and School Liaison Police Officers, as needed.
3. If the school needs assistance in assessing risk, they may call the District team which consists of the Zone Superintendent, a representative from Special Programs and other counsellors or administrators, as needed, along with an expanded school team, e.g. learning assistance teachers, multicultural workers, aboriginal support workers, teaching assistants, etc.
4. If the data indicates that the student in question poses a threat, the School Team may invite community partners trained in threat assessment to assist with an intervention plan. The Community Team may include the police, representatives from Child and Youth Mental Health, the Ministry for Children and Family Development, Adolescent Crisis Response, Deltassist Family and Community Services, forensic psychologists and physicians.

<p>NOTE: At any point in this process, the school may consult with the Zone Superintendent or a Representative from Special Programs</p>

VIDEO SURVEILLANCE

Background

To enhance the safety of students and others on school premises and deter destructive acts, the District authorizes the use of video surveillance equipment on District property and buses supporting District activities, where circumstances have shown that it is necessary for these purposes and its benefit outweighs its impact on the privacy of those observed.

In dealing with surveillance of students, the District recognizes both its legal obligation to provide appropriate levels of supervision in the interests of student safety and the fact that students have privacy rights that are reduced but not eliminated while the students are under the supervision of the school.

Video surveillance, like other forms of student supervision, must be carried out in a way that respects student privacy rights.

A recording is recognized to be subject to the provisions of the Freedom of Information and Protection of Privacy Act.

Procedures

1. General

- 1.1 Video cameras may be used to monitor and/or record.
- 1.2 Video surveillance camera locations must be authorized by the Principal/Site Manager or by the Superintendent or designate.
 - 1.2.1 The School Parent Advisory Council of an affected school must be consulted and must approve of any permanent video surveillance camera installation and proposed locations before any authorization is granted.
 - 1.2.2 Any change in camera location must be authorized in the same manner.
- 1.3 Before video surveillance is introduced at a new site, a report must be provided to the Superintendent describing the circumstances that indicate the necessity of having surveillance at that site, including a discussion of less invasive alternatives.
- 1.4 Video surveillance may be used at times and places where vandalism, safety or security issues are likely to occur.
- 1.5 Public notification signs, clearly written and prominently displayed, must be in place in areas that are subject to video surveillance.

- 1.5.1 Any exception to this, such as for a time-limited specific investigation into criminal conduct, must be authorized by the Superintendent on the grounds that covert surveillance is essential to the success of the investigation and the need outweighs the privacy interest of the persons likely to be observed.
 - 1.5.2 Covert surveillance may not be authorized on an ongoing basis.
 - 1.6 Video surveillance is not to be ordinarily used in locations where appropriate confidential or private activities/functions are routinely carried out (e.g. bathrooms, private conference/meeting rooms).
 - 1.6.1 Any exception to this must be authorized by the Superintendent on the grounds that no other supervision option is feasible and that the need is pressing and outweighs the privacy interest of the student or other person likely to be observed.
 - 1.6.2 Surveillance of such locations may not be authorized on an ongoing basis.
 - 1.7 Temporary installations of video surveillance cameras for specific investigative purposes do not require the approval of the School Parent Advisory Council.
2. Security
- 2.1 Video cameras will be installed only by a designated employee or agent of the District.
 - 2.1.1 Only designated employees or agents and the Principal/Site Manager shall have access to the key that opens the camera boxes.
 - 2.1.2 Only designated employees shall handle the camera or recordings.
 - 2.2 Video recordings shall be stored in a locked filing cabinet in an area to which students and the public do not normally have access.
 - 2.3 Recordings may never be sold, publicly viewed or distributed in any other fashion except as provided for by this administrative procedure and appropriate legislation.
3. Real Time Monitoring
- 3.1 Real time monitoring generally takes place during periods when staff and students are in the building, for the purpose of identifying problems that require immediate intervention and for the safety of people on the premises.
 - 3.2 The monitor will be located in the administrative office area under the direct supervision of the office staff.
4. Viewing of Recordings
- 4.1 Monitors used to view recordings are not to be located in a position that enables public viewing.

- 4.2 Recordings may only be viewed by the Principal/Site Manager or individual authorizing camera installation, by parents and students (see 4.4 below), or by District staff with a direct involvement with the recorded contents of the specific recording, or employees or agents responsible for the technical operations of the system (for technical purposes only).
 - 4.3 If an employee or student is facing any disciplinary action, s/he may authorize his/her union representative or other advocate to also view the recording.
 - 4.4 Parents or guardians requesting to view a segment of a recording that includes their child/children may do so.
 - 4.5 Students may view segments of a recording relating to themselves if they are capable of exercising their own access to information rights under the Freedom of Information and Protection of Privacy Act.
 - 4.6 Student/parent/guardian viewing must be done in the presence of the Principal or designate.
 - 4.7 A student, parent or guardian has the right to request an advocate to be present.
 - 4.8 Viewing may be refused or limited where viewing would be an unreasonable invasion of a third party's personal privacy, would give rise to a concern for a third party's safety, or on any other ground recognized in the Freedom of Information and Protection of Privacy Act.
5. Retention of Recordings
- 5.1 Where an incident raises a prospect of a legal claim against the District, the recording, or a copy of it, shall be sent to the District's insurers.
 - 5.2 Recordings shall be erased within one (1) month unless they are being retained at the request of the Principal/Site Manager, Superintendent or designate, employee, parent or student for documentation related to a specific incident, or are being transferred to the District's insurers.
 - 5.3 Recordings retained under 5.2 shall be erased as soon as the incident in question has been resolved, except that if the tape has been used in the making of a decision about an individual; the tape must be kept for a minimum of one (1) year as required by the Freedom of Information and Protection of Privacy Act unless earlier erasure is authorized by or on behalf of the individual.
6. Review
- 6.1 Each Principal/Site Manager is responsible for the proper implementation and control of the video surveillance system.
 - 6.2 An annual review of each video surveillance system must be undertaken that assesses if the installation and operation of the system is accomplishing its intended purpose (protecting safety of individuals and their belongings, or school property).
 - 6.3 The Superintendent or designate shall conduct a review at least annually to ensure that this administrative procedure is being adhered to and to make a report to the Board on the use of video surveillance in the District.

7. Improper Use

- 7.1 Video surveillance is to be restricted to the uses indicated in this administrative procedure.
- 7.2 The District will not accept the improper use of video surveillance and will take appropriate action in any cases of wrongful use of this administrative procedure.

COPYRIGHT

Background

The District believes in the rights of creators and expects staff members to be aware of and uphold these rights as required by the Copyright Act. At the same time, the District recognizes the need for students to have access to a wide range of educational resources. This administrative procedure is intended to set limits within which staff members may copy and distribute copyrighted materials.

The District will not accept responsibility for a staff member who willfully and knowingly contravenes the Copyright Act or who copies materials without permission of the author or publisher which are excluded from the Access Copyright agreement.

Definitions

In this administrative procedure:

Copyright means the legal protection of a creator's original work. Copyright law does not protect ideas, only the form in which they are expressed.

Copyright infringement means publishing, adapting, exhibiting, translating, editing, performing in public, communicating by telecommunication, copying or converting to another medium without permission of the creator.

Works covered by copyright means all original literary, dramatic, musical and artistic works for which the copyright owner's term of rights has not expired.

Examples include: books, writing, encyclopedias, photographs, films, dictionaries, statistical data, newspapers, reviews, magazines, translations, tables, compilations, examination questions, speeches set down in writing, any piece that can be recited, choreographies, harmony, melody, lyrics, paintings, drawings, sculptures, works of artistic craftsmanship, engravings, architectural works of art, maps, plans, charts, records, cassettes, tapes, sound recordings, television programs and electronic resources such as computer software, on-line programs and applications, CD-ROM's, laser disks and computer programs stored on any media.
